

three

3

the same
number

The word three and the numeral 3 stand
for the same number.
for different numbers.

two

2

2

The word two and the numeral $\frac{2}{3}$ stand
for the same number.

four

4

four

The word two and the numeral 4 stand
for the same number.

The word five and the numeral 5 are both symbols.

yes

Do both of these symbols stand for the same number? _____

Circle only the symbols which we call words:

three

three

3

5

five

five

seven

seven

7

four

four

Circle only the symbols which we call numerals:

two

9

9

one

2

2

8

8

Beside each word, write the numeral which has the same meaning:

three 3

nine 9

two _____

seven _____

one _____

zero _____

eight _____

2

7

1

0

8

Beside each numeral, write the word which has the same meaning:

4 four

12 twelve

6 _____

5 _____

9 _____

10 _____

six

five

nine

ten

addition

The word plus and the sign + are symbols used in the mathematical operation called addition. subtraction.

subtraction

The word minus and the sign - are symbols used in the mathematical operation called subtraction. addition.

-

+

-

Circle the sign used in subtraction:

plus

The sign + has the same meaning as the word minus. plus.

+

plus _____

-

minus _____

Beside each word, write the sign which has the same meaning:
