Day and Night

sun

When the sun rises in the morning, day begins. The light which the sun sends us is called daylight. It stays light until the sun sets at the end of the day.

stars

After sunset, it grows dark. Then we say that it is night. The sun doesn't shine at night, but the stars twinkle in the sky. The stars don't give us much light. The little bit of light that they give is called starlight.
