

UNIT 1

Use these spaces to do your work.

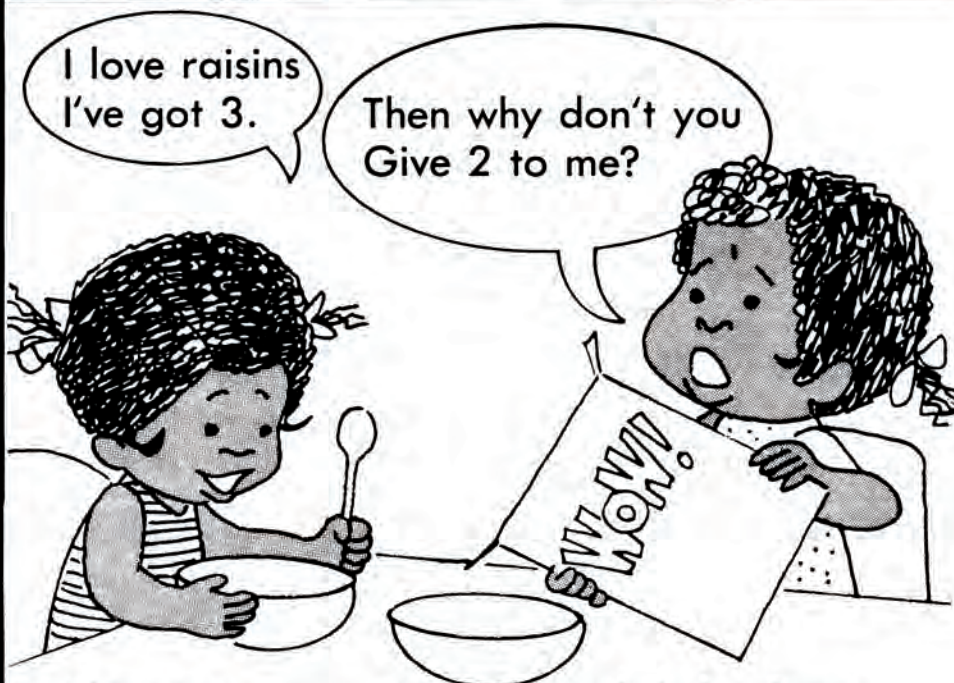

5

There were _____ raisins in the Wow!
Prue takes all 5 and eats 2 now.

$$5 - 2 = \underline{3}$$

How many raisins does Prue have left? _____

3

Now just _____ raisins are left for Prue.
Prue feels bad and gives Sue 2.

$$3 - 2 = \underline{1}$$

How many raisins are left for Prue? _____

Use these
spaces to do
your work.

5 balls isn't many,
I'll go see if Mom has any.

Sue hangs _____ balls on the tree.
Max the cat thinks: I'll take 1 ball for me.
Now how many balls are on the tree? _____

5

$$5 - 1 = \underline{4}$$

4 shiny balls
Upon the tree!
I'll bet Sue
Put them there for me.

_____ balls were on the tree
Until silly Prue ran off with 3.
How many balls are left on the tree? _____

4

$$4 - 3 = \underline{1}$$

UNIT 2

Use these spaces to do your work.

If you like rock,
Then you'll dig mine.
My hit records
Come to 9.

6 of the records
That you made,
Just dropped off
The hit parade!

9

Fernando Offkey had _____ hit records.
Then 6 records dropped off the hit parade.

How many hit records does Fernando have left? _____

$$9 - 6 = \underline{3}$$

I need a new act—
And that is a fact!

Your hair hangs 8 inches
Below your chin.
We'll cut off 5 inches
And then we'll begin . . .

8

Fernando's hair hangs _____ inches below
his chin. Sam Sharp cuts off 5 inches of
Fernando's hair.

Now how many inches does Fernando's hair
hang below his chin? _____

$$8 - 5 = \underline{3}$$

Now my hair is not too long,
But I still need a brand new song.
I wrote 7 verses yesterday
Here they are—what do you say?

It's like your hair, Fernando,
Just a bit too long!
Let's cut out 3 verses,
And here's our song!

Use these spaces to do your work.

7

Fernando wrote _____ verses for a new song. Sam cut out 3 verses.

How many verses are left in Fernando's new song? _____

$$7 - 3 = \underline{4}$$

We're the 6 Star Sisters
And very proud about it.
Our act's the best in town
And don't you ever doubt it!

You may think that you're 6
But you've just lost 1.
I'm tired of working.
I'm off to have some fun!

6

There were _____ Star Sisters in the act. Then 1 Star Sister left the act.

How many Star Sisters are left now? _____

$$6 - 1 = \underline{5}$$
