

UNIT 1

Use these spaces to do your work.

Regina Squarebacker loves to keep things neatly in boxes. One day her mother gives her 20 marbles. Regina puts them neatly in a box in 4 rows. How many marbles are in each row? _____

$$20 \div 4 = \underline{5}$$

Regina goes to the store to buy some gum balls. She finds 15 gum balls in the gum ball box. The gum balls are in 3 rows. How many gum balls are in each row? _____

$$15 \div 3 = \underline{5}$$

On the way home from the store, Regina looks in the bakery window. She watches the baker take 8 loaves of bread out of the oven. He takes 2 loaves out at a time. How many trips does he make? _____

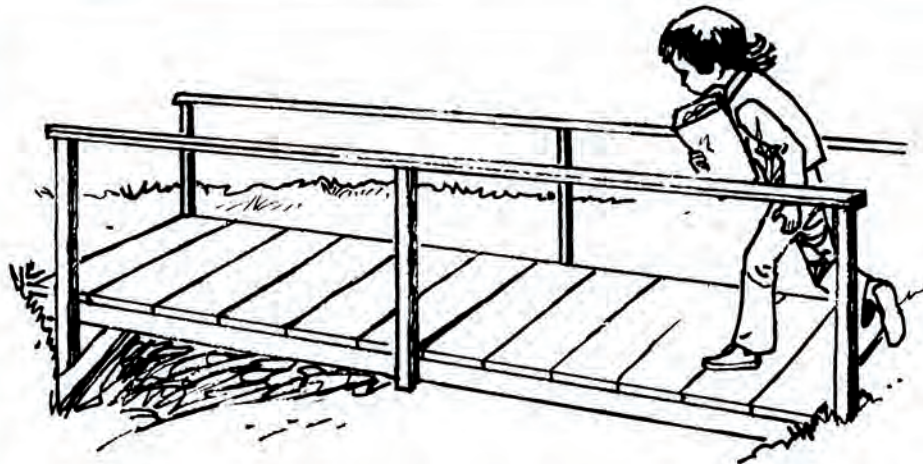

$$8 \div 2 = \underline{4}$$

Use these spaces to do your work.

Regina goes to the egg ranch to buy 24 eggs. The eggs are packed in a box that has 6 eggs in each row. How many rows are there? _____

$$24 \div 6 = \underline{4}$$

On the way home from the egg ranch, Regina crosses an old bridge. The bridge is made up of 12 planks. Regina steps on every 2nd plank. How many planks does she step on? _____

$$12 \div 2 = \underline{6}$$

Regina goes to Farmer MacDonald's orchard to buy 36 apples. She neatly packs them in a box before taking them home. She puts the apples in 6 rows. How many apples are there in each row? _____

$$36 \div 6 = \underline{6}$$

Farmer MacDonald likes the way Regina packs apples, so he offers her a job. She packs 45 apples in a large box. She packs the apples in 9 rows. How many apples are in each row? _____

Use these spaces to do your work.

$$45 \div 9 = \underline{5}$$

Regina packs 30 apples in a basket. She puts 6 apples in a row. That means that there are _____ rows of apples in the basket.

$$30 \div 6 = \underline{5}$$

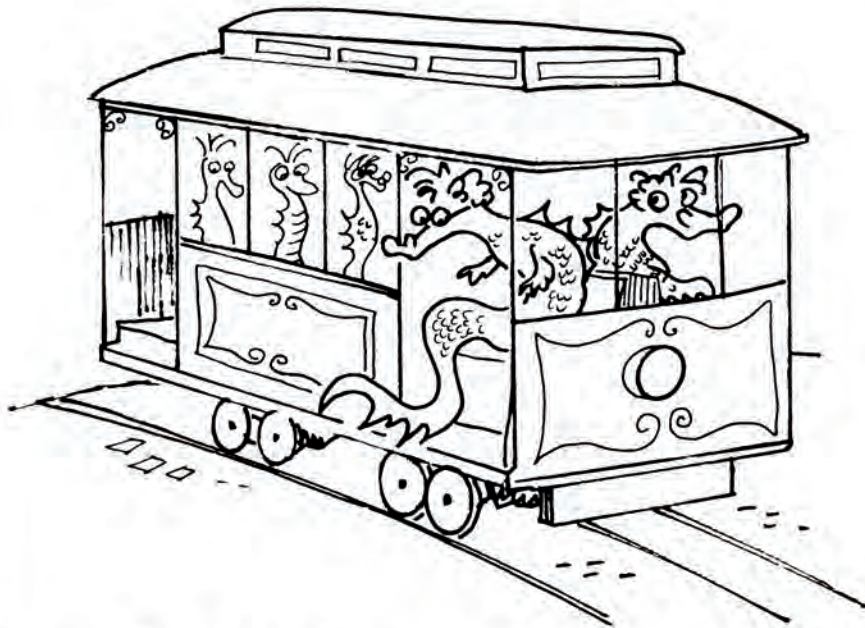

To get home from Farmer MacDonald's Orchard, Regina crosses a pond. There are 10 stepping stones across the pond. Regina steps on every 2nd stone. How many stones does she step on? _____

$$10 \div 2 = \underline{5}$$

UNIT 2

Use these spaces to do your work.

Samantha Sea Serpent takes the submarine cable car to the Marine Market. There are 12 sea serpents on the cable car. Half of the serpents are on one side of the car, half are on the other. How many sea serpents are on each side? _____

$$12 \div 2 = \underline{6}$$

Samantha buys some sea cucumbers. The market is selling 5 sea cucumbers for 25 sand dollars. That means one sea cucumber costs _____ sand dollars.

$$25 \div 5 = \underline{5}$$

Next Samantha goes to the Marine Bakery and buys 24 sea biscuits. The baker puts them into 4 boxes. How many sea biscuits go in each box? _____

$$24 \div 4 = \underline{6}$$
