6. ball

6. A bowling b___ __ is held like this.

7. holes

7. Your fingers fit into the ___holes.
___bowls.

8. a

8. A bowling ball is not thrown. It is rolled. When the bowler rolls the ball, he ___a. lets go of it.
___b. holds onto it.

The bowling ball is rolled at ten pins which stand at the end of a space called an alley. The floor of the alley is waxed until it is very slick. This makes the ball roll quite fast and true. The faster the ball rolls, the harder it will hit the pins.

The bowler stands behind a line at his end of the alley. He must not step over this line when he rolls the ball at the pins.
