BASIC CURSIVE STROKES

Short Undercurve

Touch the baseline;
curve under and up
to the midline.

Short Overcurve

Touch the baseline;
curve up and right
to the midline.

Tall Undercurve

Touch the baseline;
curve under and up
to the headline.

Tall Overcurve

Touch the baseline;
curve up and right
to the headline.

Short Downcurve

Touch the midline;
curve left and down
to the baseline.

Short Slant

Touch the midline;
slant left to the
baseline.

Tall Downcurve

Touch the headline;
curve left and down
to the baseline.

Tall Slant

Touch the headline;
slant left to the
baseline.

Practice writing the basic cursive strokes.

Handwriting practice lines consisting of multiple sets of three horizontal lines (headline, midline, baseline) for practicing the cursive strokes.

LOWERCASE

Introduction to UNDERCURE

The undercurve is part of the backward oval motion. Write the backward oval five times.

Write the undercurve.

Write the undercurve-slant motion.

Join two undercurve-slant motions.

UNDERCURVE LETTERS

Write these undercurve letters three times.

Write these letters with undercurve loops three times.

Write these joinings.

LOWERCASE

Introduction to DOWNCURVE

The downcurve is part of the backward oval motion. Write the backward oval five times without lifting the pencil.

Write the downcurve six times.

Write series of backward ovals.

Join backward ovals with undercurves.
